## **Kreab Brussels is looking for a student trainee**

Kreab is a strategic communications and public affairs agency specializing in the fields of corporate and financial communication and public affairs. We offer communication counselling to companies, organizations, trade associations, non-governmental organizations and public authorities.

Kreab Brussels specialises in European Affairs, assisting clients in developing focused relations with the EU Institutions.

We are now looking for a student trainee for the autumn. The trainee will get an insight in our daily work and be assigned own smaller projects such as monitoring, memo and article writing and information gathering and processing.

English is our working language. Other language skills are meriting, especially Eastern European languages. Basic European Affairs knowledge is also an advantage.

We are looking for a person who can function well in our team, where we often work with tight deadlines. The trainee will be expected to take own responsibility and initiatives.

Please send a letter and your CV in English to [karl.isaksson@kreab.com](mailto:karl.isaksson@kreab.com), before May 31<sup>st</sup>.
